- 2. Overview of the Key Stage 4 Curriculum
- 3. How to Use This Handbook
- 4. Careers Guidance
- 5. Subject Pages (Core)
- 6. Subject Pages (Options)
- 7. Frequently Asked Questions

1. Message from Mr G Dineen, Headteacher

It is our pleasure to present you with the Nishkam School West London Key Stage 4 Options Handbook. The purpose of this publication is to assist you in the process of choosing the courses that are the most suitable for you to follow over the next two years. Your selection may include academic and / or vocational courses. What is important is that you choose subjects that you are confident you will enjoy learning more about, that are appropriate for the demands of future careers and higher education courses that you may be interested in pursuing and that reflect the strengths you have demonstrated in Years 7 to 9.

Four of the most common mistakes that students can make when choosing their options are:

- Choosing subjects because they like the teacher who has taught them at Key Stage 3
- Choosing subjects that they think will be easy
- Choosing subjects that don't really interest them, because their parents / carers tell them to
- Choosing subjects because their friends have chosen them

Whatever you choose will determine how you spend a considerable amount of your time over the next two years, the A level and other post-16 courses that you will be able to study in the Sixth Form and the careers for which you will be qualified in the longer-term future.

This is an important juncture in your educational journey so far. This may be the first opportunity that you have had to determine your next educational steps. It is important, therefore, that you make sure you research and consider your options carefully. Ask lots of questions and talk to as many well-informed people as possible, just as you would about any other important decision in your life.

Good luck with the process and remember, we are here to help and support you.

Mr G Dineen, Headteacher

2. Overview of the Key Stage 4 Curriculum

What are we trying to achieve?

Depth – Students are given a generous allocation of curriculum time to complete their courses, so they are as well prepared as they can be for the qualifications they are taking.

Breadth – Students have 3 option choices alongside 6 core qualifications, allowing them to continue to study a wide range of subjects. There is a balanced variety of subjects to choose from to suit all learners.

Skills and qualifications for life – All courses are recognised and valued by Sixth Forms, colleges, universities and employers and lead on to either further study or employment. Great importance is attached to the core, as these qualifications are central to students' progression in life.

Timetable allocation:

For the majority of subjects, Key Stage 4 will run over two years, with students completing courses at the end of Year 11.

Core Subjects

Core subjects account for a total of 21 lessons per week on the timetable.

| Subject | Lessons per week | Qualifications |
|----------|---------------------|--|
| English | 5 | 2 GCSEs – English Language and English Literature |
| Maths | 4 | 1 GCSE |
| Science | 6 | 2 GCSEs – Combined Science (unless pupils are entered for triple Science, they will receive 3 separate Science qualifications) |
| RE | 2 | 1 GCSE (RE GCSE will be sat by all pupils at the end of Year 10) |
| Core PE | 1 | Statutory (Sports Studies is available as an option in addition to core PE) |
| Language | 3 | 1 GCSE in either Spanish or Punjabi |

Option Choices

Students have three option choices, therefore option subjects account for a total of 9 lessons per week on the timetable.

| Option | Lessons per week | Qualifications |
|---|------------------|-----------------------|
| Option 1 Humanities- either Geography or History | 3 | 1 GCSE |
| Option 2 | 3 | 1 GCSE or equivalent* |
| Option 3 | 3 | 1 GCSE or equivalent* |

* Vocational courses offered are the equivalent value to GCSE courses

Subjects on offer

Once students have picked their humanities subject, they will then have the opportunity to pick two subjects from the choice below. You will make your choice by completing a Microsoft Form, the deadline for this is **Wednesday 23nd April 2025**

| Art, Craft and Design | Business Studies* | Computer Science* | Drama | Film Studies |
|----------------------------|---|--------------------------------|--------------|--------------|
| Geography | History | Music | Photography* | Sociology |
| Enterprise (vocational) | Hospitality and Catering (Vocational) | Sports Studies (vocational) | | |

Please note that conditions apply to the following 4 GCSE subjects-

If you pick either Business Studies, Computer Science or Photography as one of your option choices, but have not met the criteria listed below, we will look to give you your reserve choice.

- 1. Computer Science GCSE
 - To pick Computer Science as an option subject pupils must -
 - a) Have achieved an 'Excellent' or 'Secure' in Computer Science **and** Maths at KAT 2
 - b) Pass an entry exam, this will be an hour-long written paper and will take place after school
- 2. Business Studies GCSE
 - To pick Business Studies as an option subject pupils must -
 - a) Have achieved an 'Excellent' or 'Secure' in English **and** Maths at KAT 2. Pupils who have not met this criteria, will be eligible to pick Enterprise as an option subject
- 3. Photography

To pick photography as an option subject pupils must-

- a) Have achieved an 'Excellent' or 'Secure' in Art at KAT 2.
 Pupils who have not met this criteria, will be eligible to pick Art as an option subject
- b) Pupils should not pick Art and Photography, only one of these should be picked
- 4. Triple Science GCSE

The top 30 pupils will be offered the opportunity to study Triple Science at GCSE, this will be based on performance across KAT 1, 2 and 3 and teacher judgement. If any spaces become available, they will be offered to those next on the list. The Science team will provide pupils with more details on this over the next few weeks.

The English Baccalaureate (EBacc)

All pupils will be studying the English Baccalaureate (EBacc), the EBacc is made up of the subjects which are considered essential to many degrees and open up lots of doors. Research shows that a pupil's socio-economic background impacts the subjects they choose at GCSE, and that this determines their opportunities beyond school. A study by the UCL Institute of Education shows that studying subjects included in the EBacc provides students with greater opportunities in further education and increases the likelihood that a pupil will stay on in full-time education. Sutton Trust research reveals that studying the EBacc can help improve a young person's performance in English and maths. The EBacc consists of English Language and Literature, Maths, Science, a language and Geography or History.

Pathways

Through their subject choices and the guidance provided to them, students will follow one of three possible pathways through the Key Stage 4 curriculum at Nishkam School West London:

- A purely academic pathway consisting solely of GCSE subjects
- Core GCSEs with a blend of academic and vocational subjects
- Core GCSEs with vocational subjects.

Please note that some of the opportunities we offer may change because of higher or lower student demand for certain subjects. Any changes will be discussed with you personally if they affect you.

What are Vocational Qualifications?

Vocational qualifications are practical qualifications that relate to a specific job or career sector. Unlike typical academic GCSE courses, they combine a mix of theory and practical learning.

Vocational qualifications are a good option if you have a clear idea of what type of career you would like to work in and can help you to build up the specific skills you need to get your first job.

The vocational courses we will be running at NSWL are:

- Enterprise
- Hospitality and Catering
- Sport Studies

Vocational courses have been developed in partnership with employers and professional and trade organisations, which means that you will be learning the skills that employers want. This is really good for your CV and your career. If you choose a vocational option, you will develop real-life skills as well as learning theory, and there will be a more practical approach compared to traditional courses like GCSEs, which will help you to leave education ready for the world of work. Vocational courses have equivalent value to GCSE courses, are highly respected by schools and colleges, and provide pathways for students to progress onto post-16 education. Students studying any of the three vocational options gain a Level 1 or Level 2 qualification. This is how the vocational course grading compares to the GCSE grades:

| Vocational | Level 2 Distinction* | Level 2 Distinction | Level 2 Merit | Level Pass |
|--------------------------|----------------------|---------------------|---------------|------------|
| Grade | | 7 | | 4 |
| Equivalent GCSE Grade | 9-8 | / | 6-5 | 4 |

| Vocational Grade | Level 1 Distinction | Level 1 Merit | Level 1 Pass |
|--------------------------|---------------------|---------------|--------------|
| Equivalent GCSE Grade | 3 | 2 | 1 |

3. How do I use this booklet?

This booklet is designed to help you make the best choices for Years 10 and 11 (Key Stage 4). If you have not already done so, you now need to start thinking about what you hope to achieve in the future.

Read the booklet carefully, then use this information to decide which courses will be best for you in Years 10 and 11. Take into consideration what you enjoy the most, as well as your current strengths and areas for improvement across the subjects your currently study.

Remember, you don't have to make your decisions straight away. Take your time to ask questions, do more research using the links we have provided and re-read the subject information. These decisions will most likely have a big impact on the rest of your life, so don't rush them.

When you feel certain about your choices, you should then complete your online options form. The link will be shared with you via Teams. Your Options form will need to be completed by **Wednesday 23rd April 2025**

Who should help me make my choices?

- Subject teachers, who can tell you about the individual courses
- Your Form Tutor, who knows you and your strengths in school
- Your Head of Key Stage and the Senior Leadership Team, who can also give you information about jobs and future courses
- Your parents, who know you best as a person
- YOU don't forget to trust yourself to make the right decisions

Additionally, there are also several people who can advise you about which subject options will be the best for you including:

- Mr Dineen, Headteacher
- Miss Cruickshank, Deputy Head Teacher
- Miss Atkin, Deputy Head Teacher
- Ms Gill, Assistant Head Teacher
- Ms Gaymer, Assistant Head Teacher
- Mr Kerrisk, Assistant Headteacher (Careers Lead)
- Mr Milligan, Assistant Head Teacher

4. Careers Guidance

The current careers market is changing, and it is important students are informed about careers and possible entry routes. Many students are unlikely to know which specific job or career they would like to pursue in the future, however, the options they choose now could potentially impact the opportunities available to them after A-Levels and University.

In choosing their programme of study, students should be thinking about their longterm ambitions. All students should be exploring careers ideas and developing an understanding of the careers which suit their interests and skills. If they already have a clear career plan, they should be investigating any necessary GCSE and A level requirements.

Unifrog is an excellent website which all students will have access to. Unifrog brings into one place information about all post-school opportunities, including every UK university course, apprenticeships including degree apprenticeships, and college courses in the UK, as well as other opportunities, such as School Leaver Programmes. This makes it easy for students to compare and choose the best opportunity for them.

As a starting point, all students should be using the Unifrog platform to complete the following tasks:

- Interests Quiz
- Skills Quiz
- Personality Profile
- Research careers in Careers Library
- Research subjects in the Subjects Library

There is also a range of useful websites which students can explore to further help them when choosing their options:

| <u>https://www.unifrog.org/</u> | All Students have their own personal log in to the Uniform platform, and activities around it, are delivered during tutor time. It is a one-stop-shop for students across Key stage 3,4,& 5 for information on all routes post-16, no matter their interests or academic ability. |
|--|---|
| https://website.u-explore.com/ | U-Explore is an independent and impartial national careers platform. Learners and parents/carers can log on to UExplore 24/7, via an internet connection, to access over 2,000 written and video job profiles across 14 industry sectors, real work environments and 360- degree Virtual Tours. |
| www.ucas.com | Information about higher education courses and entry requirements. |
| www.informedchoices.ac.uk | The Russell Group of Universities Guide to post 16 choices and university entry. Includes some GCSE requirements |
| https://nationalcareers.service.gov.uk/explore- your-education-and-training-choices | A government careers website which allows you to assess your skills and match them to potential new careers, explore over 800 careers and find local learning and training opportunities. |
| https://amazingapprenticeships.com/ | Connecting schools, colleges and training providers with a National Apprenticeship Service in their area. |
| https://careermap.co.uk/careerometer/ | A tool which allows you to compare the working hours and average wages for job roles across the UK |

Pre-16 Qualifications and University Entrance

The following information is taken from a leaflet issued by the Russell Group, which provides guidance to students about how their GCSE subjects can affect their course choices at some universities:

- When applying to a university, and especially for a course at a competitive university, it is important that you consider all aspects of the entrance requirements, including the GCSE or other standard level requirements.
- Universities may ask for a specific number of GCSEs (or their equivalent). For example, a number of medical courses ask for five (sometimes more) top grades.
- GCSE English or another standard level equivalent is very often required at Grade 5 at least. At many universities this is a universal entry requirement for any course. Mathematics is only slightly less commonly asked for. Occasionally a university will require a foreign language for entry to any course, for example, University College London introduced such a requirement in 2012.
- For many courses a grade 5 at least in GCSE English is needed, with science and engineering courses in particular often specifying this. Equally, courses such as Business and Psychology, which may attract applicants who aren't necessarily strong mathematicians, commonly ask for a grade 5 in mathematics and, in some cases, sciences.
- The GCSE or other standard level entrance requirements for individual degree courses are quite varied. In some cases, a particular subject or grade is required at standard level if it isn't being offered at advanced level.

The summary below gives an idea of some of the GCSE requirements that you might come across for certain degree courses. Remember that these are only examples. It's important to check university websites detailed requirements before applying.

- To study many degrees at university you must have secured a grade 5 in both English and Maths GCSE.
- Applicants to study Medicine are required to have very good GCSE results in Maths, Science and English.
- Increasing numbers of universities require applicants to have a GCSE in a modern or classical language at grade 5 or above to be considered for any course.
- For a Business degree, a grade 5/6 in GCSE Maths is required.
- A grade 5 or 6 in Maths and Science is often required for a degree in Psychology.

Note for parents/carers: Please do not buy any form of textbook or learning aids for your child until confirmation of your child's course is given by the school.

5. Core Subjects

GCSE English Language

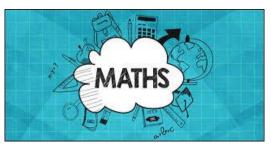

| Subject | | GCSE English Lar | nguage | |
|---|---|------------------------|---------------------|-----------------|
| Exam Board | AQA English Language (8700) | | | |
| Overview | English Language is a core GCSE, required for entry to A-Level study and higher education. The course develops students' ability to understand and interpret texts in different genres of fiction and non-fiction, as well as to express original and analytical ideas in a sophisticated way. Creative writing makes up 50% of the final mark. | | | |
| Course Structure | The course is linear with follow the pathways out English and so all studen examinations. | lined below for Langua | ge. Papers are no l | onger tiered in |
| Assessment | English Language GCSE | | | |
| | Paper 1 written exam Explorations in Creative Reading and Writing 1 hour 45 minutes 50% of GCSE Paper 2 written exam Writers' Viewpoints and Perspectives 1 hour 45 minutes 50% of GCSE Students complete the Spoken Language assessment in class; this does not count towards final GCSE grades. | | | |
| Career Opportunities and Further Education | Journalism | Teacher | Broadcaster | Lawyer |
| Unique Selling Point | English is central to all other subjects, in developing students' literacy and teaching them to process and interpret complex ideas. | | | |

| Selling Point | RE is a unique subject which helps you to develop a broader outlook in life and increase your skills in abstract thinking. It helps pupils to develop a greater understanding and appreciation of religious thought and its contribution to ndividuals, communities and societies. Pupils will develop analytical and critical thinking skills to enable them to present a wide range of well-informed and reasonable arguments. |

GCSE Combined Science (Double Award)

| Subject | GC | SE Co | mbined Scie | ence (Doubl | e Awa | ırd) | |
|---|---|--|-------------|-------------|---|---|--|
| Exam Board | | | | QA | | - | |
| Overview | Students will study a range of content from the 3 Sciences; chemistry, biology and physics. From cells to forces, atomic structure to genetics and magnetism to chemical reactions. The double award course will also give students the opportunity to learn through engaging practical experiments, of which there are 16 required for completion of the course. | | | | | | |
| Course Structure | Students will receive 6 lessons per week, usually delivered by 2 different teachers. Lessons will consist of a mixture of theory, practical work and application. Students will be developing their scientific literacy, numeracy and experimental skills. Only pupils consistently performing at 'Secure' or 'Excellent' in Science assessments will be eligible for Triple Science at GCSE. | | | | | | |
| Assessment | The double award is equivalent to 2 GCSEs. These grades are calculated using the averages of 6 exam papers (2 biology, 2 chemistry and 2 physics). The papers are equally weighted (16.7%) and consist of multiple choice, structured, closed, short answer and open response questions, providing differentiation and accessibility across all ability levels. | | | | | | |

GCSE Geography

| Subject | | GCSE Geog | graphy | |
|---|---|-----------------------|---------------------|-------------------|
| Exam Board | | Edexcel B | (1GB0) | |
| Overview | Geography allows students to explore the world from their classroom. Students have the opportunity to develop and explore their understanding of places, processes and interactions between people and the environment. Geography enables young people to become globally and environmentally informed and thoughtful citizens, whilst creating enquiring minds equipped with a range of transferable skills. These skills allow students to respond with confidence to the demands of undergraduate study and the world of work. They include creativity, decision making, critical thinking, analysis, conflict resolution, negotiation, intercultural sensitivity, cartographic skills, data collection and statistical skills. | | | |
| Course Structure | The course is linear, stud | lents will complete 3 | examinations at the | e end of Year 11. |
| Assessment | Competent 1 Global Geographical Issues Topic 1 Hazardous Earth Topic 2 Development dynamics – Case Study- India Topic 3 Challenges of an urbanising world – Case Study- Mumbai Written examination - 1 hour 30 minutes 37.5% of the GCSE Component 2 UK Geographical Issues Topic 4 The UK's evolving physical landscape - Coastal change and conflict and River processes and pressures Topic 5 Topic 5 The UK's evolving human landscape - Case Study - London Topic 6 Geographical Investigations - One physical fieldwork investigation (coastal conflict) and one human fieldwork investigation (a dynamic urban area) Written examination - 1 hour 30 minutes 37.5% of the GCSE Component 3 People and Environment Issues - Making Geographical Decisions Topic 7 People and Environment Issues - Making Geographical Decisions Topic 8 Forests under threat Topic 9 Consuming energy resources Written examination - 1 hour 30 minutes | | | |
| Career Opportunities and Further Education | Engineer | Lawyer | Archaeologist | Pilot |
| Unique Selling Point | As part of the Geography curriculum students will have the opportunity to expand and develop the knowledge and skills gained in the classroom by participating in 2 fieldtrips. One to a coastal location, where they will study coastal change and conflict in action and the other a comparison of 2 dynamic urban areas. | | | |

GCSE Photography

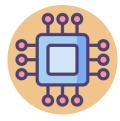

| Subject | | GCSE Pho | otography | |
|---|--|---|------------------|---|
| Exam Board | AC | | (Photography) 82 | 206 |
| Overview | GCSE Photography explores the creation of images using both traditional light- sensitive materials and modern digital methods. Students engage in various areas such as portraiture, location and studio photography, experimental imagery, installation, documentary photography, photojournalism, moving image (film, video, animation), and fashion photography. Throughout the course, students develop essential skills and knowledge, including understanding how historical, social, and cultural contexts influence photography. They learn to communicate ideas through various visual and tactile elements like colour, form, texture, and composition. Practical skills include mastering techniques such as lighting, aperture control, and digital processes, enabling students to realize their creative intentions effectively. | | | |
| Course Structure | This course is completed over two years, all sketchbook and preparatory work will be created during this time contributing to your final grade. There is one exam at the end of the course, which is a non-written practical timed assessment, making a final piece. | | | |

GCSE Drama

| Subject | Drama GCSE | | | | |
|---------------------|--|--|--|--|--|
| Exam Board | AQA | | | | |
| Overview | Students learn to collaborate with others, think analytically and evaluate effectively. They gain the confidence to pursue their own ideas, reflect and refine their efforts. Whatever the future holds, students of GCSE Drama emerge with a toolkit of transferable skills, applicable both in further studies and in the workplace. | | | | |
| Course Structure | Our GCSE Drama course offers students the opportunity to explore Drama as a practical art form in which ideas and meaning are communicated to an audience through choices of form, style and convention. Students will create, perform and respond to Drama informed by their theoretical knowledge of Drama and Theatre. The subject content details the knowledge, understanding and skills that students are expected to develop throughout the course of study. The subject content for GCSE Drama is divided into three components: 1. Understanding drama | | | | |
| | Devising drama Texts in practice | | | | |
| | This specification ensures continuity for students progressing from GCSE Drama to AS and A-level Drama and Theatre. Students who go on to AS or A-level are already familiar with studying a whole set text for the written paper. They have built solid foundations in reviewing a live theatre production and in interpreting key extracts. | | | | |
| Assessment | Component 1: Understanding drama – This component is a written exam in which students are assessed on their knowledge and understanding of how drama and theatre is developed and performed (AO3), including in connection to a set play and on their ability to analyse and evaluate the live theatre work of others (AO4). The paper constitutes 40% of the GCSE. Students have 1 hour 45 minutes to answer | | | | |
| | the paper. The paper is divided into three compulsory sections: Section A: Theatre roles and terminology Section B: Study of set text Section C: Live theatre production. | | | | |
| | In the exam, students are expected to demonstrate knowledge and understanding of the subject content. | | | | |

| Career Opportunities and Further | Actor | Director/playwright | TV/Radio | Teacher | |
|--|---|---|---|---|--|
| | Each student's contribution to each key extract performance is marked out of 20. | | | | |
| | Component 3: Texts in practice – This component is a practical component in which students a assessed on their ability to apply theatrical skills to realise artistic intentions in live performance (AO2). Component 3 constitutes 20% of the GCSE. It is marked by AQA. For this component students must complete two assessment tasks: • study and present a key extract (monologue, duologue or group performance study and present a second key extract (monologue, duologue or group performance) from the same play. | | | | |
| | | | | | |
| | devised performanc | narked out of 60. Each stuc e is marked out of 20. | dent's contribution to | the final | |
| | For this component students are required to complete the following two assessment tasks: • produce an individual 'devising log' documenting the devising process • contribute to a final devised duologue or group performance. | | | | |
| | their ability to create performance (AO1), performance (AO2) | is is a practical componer and develop ideas to co apply theatrical skills to re and analyse and evaluate the GCSE. It is marked by | mmunicate meaning ealise artistic intentio e their own work (AO |) for theatrical ns in live 4). Component | |

GCSE Film Studies

| Subject | GCSE Film Studies |
|---------------------|---|
| Exam Board | WJEC |
| Overview | Film is an important part of many people's lives. Those who choose to study it characteristically bring with them a huge enthusiasm and excitement for film which constantly motivates them in their studies. They experience a powerful medium which inspires a range of responses from the emotional to the reflective as they are drawn into characters, their narratives and the issues films raise. Film is an exciting and vibrant area of study that uniquely combines the skills of analysis with the skills of creativity and idea-generation. Film is culture, history, the arts and literature all in one course. |
| Course Structure | Learners will develop their knowledge of US mainstream film by studying one film from the 1950s and one film from the later 70s and 80s, thus looking at two stages in Hollywood's development. In addition, they will be studying more recent films – a US independent film as well as films from Europe, including the UK, South Africa and Australia. They will also develop skills of screenwriting as part of a coursework unit. |
| Assessment | Component 1: Key Developments in US Film Written examination: 1 hour 30 minutes 35% of qualification Assessment consists of four questions on one pair of US mainstream films and one US independent film: Section A: US film comparative study Section B: Key developments in film and film technology Component 2: Global Film: Narrative, Representation and Film Style Written examination: 1 hour 30 minutes 35% of qualification This component assesses knowledge and understanding of three global films produced outside the US chosen from a range of options • Section A: Global English language film • Section C: Contemporary UK film. Component 3: Production Non-exam assessment 30% of qualification Learners produce: • one genre-based film extract (either from a film or from a screenplay) • one evaluative analysis of the production Assessment overview Learners must: • Demonstrate knowledge and understanding of elements of film. • Apply knowledge and understanding of elements of film to the production of a screenplay. |

GCSE Sociology

| Subject | | GCSE Sociology | | | |
|---|--|--|---|--|--|
| Exam Board | AQA | | | | |
| Overview | GCSE Sociology gives pupils the unique ability to understand the complex societies in which we live today. Pupils will develop a broad understanding of social theory and will be able to apply it to the topics we study. Pupils will study the sociology of families, education, crime and deviance and social stratification. Pupils will also study a range of sociological research methods and understand how sociologists produce their findings. | | | | |
| Course Structure | examination and co | Students will sit two papers at the end of Year 11. Each paper is a written examination and consists of a mixture of short and extended answers. Each paper is worth 50% of the final grade. | | | |

| Unique Selling Point | Studying GCSE Sociology gives pupils a unique awareness of how our society works. Pupils will develop a deep understanding of the social, political and economic issues that shape society and will be able to make judgments on whether or not we live in a fair and just society. Sociology will help pupils to broaden their minds and see the world in a new and interesting way. Pupils will be challenged to understand different perspectives and to formulate their own convincing opinions on the state of society. | | | | |

8. Frequently Asked Questions

Why do I have to make choices?

As you have progressed through Key Stage 3, you have studied all the available subjects, but now you will reduce the number of subjects you studying and we will offer you a selection of subjects you haven't previously studied. The reason is that we want you to concentrate on subjects that are (i) vital to your future – this is why you all continue to study English, Maths, Science and RE, and (ii) interesting and relevant to you personally; you have the chance to 'specialise' more than in Key Stage 3.

What is the core curriculum that all students follow in Years 10 and 11?

All students continue to study English, Mathematics, Science and RE through timetabled lessons. Students continue to take part in timetabled PE lessons, although these do not lead to a qualification. PSHCE and work-related learning also form part of the curriculum through cross-curricular links and other experiences (such as work experience).

How many option choices do I have?

Students must make 3 choices plus 2 reserve choices. The vast majority of students will study at least one language and either History or Geography (although students may study both if they wish).

Is PE in the core, or an option?

Both. All students have core PE. It is also possible to opt for a qualification in PE – Sport Studies, run by the Cambridge board.

How do I know what subjects to take?

There is lots of guidance available and you will have a specific guidance interview to discuss your option choices. Read the options brochure and talk to your teachers and parents.

What is the difference between GCSEs and vocational courses (Level 1 & 2 courses with longer names)?

GCSEs are 'level 2' qualifications where the grades 9 to 1 are achievable. Vocational courses are also level 2 courses and are equivalent to GCSEs but have other titles such as Certificate, Award or Diploma. Grades awarded for vocational courses are typically Distinction*, Distinction, Merit and Pass. All vocational courses have strong links to careers in specific areas.

Will I definitely get my option choices?

We will do our best to accommodate all your option choices. You may have to take one of your 'reserve' courses, however, if any of the following factors apply:

- Not enough students choose to study a particular course, so it cannot run
- We advise strongly against you taking a course because, based on our knowledge of you from Key Stage 3, we may feel the course is unsuitable for you.
