Determination

APS Art Menu

At Akaal Primary School children explore and develop their skills and creativity using a wide range of media. We believe that Art stimulates creativity, imagination and inventiveness.

"Art is not just a subject you can learn but an activity that you can practise with your hands, your eyes, your whole personality." Quentin Blake

Why do we teach art?

- Because art, craft and design contribute to our wellbeing and to our social, emotional and cultural development
- Because the arts help children learn to say what cannot be said
- Because we want to prepare children to engage in the historical and contemporary visual arts and become confident audiences
- Because we want our children to think critically
- Because art, craft and design can lead to a career in the creative industries - employment in this sector is on the increase
